Descriptive Return of a Soldier Discharged on Account of Disability

INSTRUCTIONS—This form is to be completed in the case of every discharged soldier whose claim to pension on account of disability, is to be submitted for the consideration of the Pensions and Disabilities Board.

This section should be completed in the Hospital at which a man is attending at the time of his examination by a Medical Board, or, if the man is not in Hospital, by the Medical Officer of the Unit or Command Depot. The Soldier should be given a full opportunity of examining it, as, if awarded a pension, his subsequent identification depends on his confirming this declaration. The "Rank," "Station," and "Date" should be in his own handwriting.

The form will then be attached to the Proceedings of the man's Medical Board and will be forwarded to the O. i/c Records together with the remainder of the man's documents.

Changes occurring in the description subsequent to the date of admission to pension should be noted in red ink.

 Patient complains of effects of Osteo-myelitis. Man states that he had which resulted in an acute attack of osteo-myelitis. Since that time left knee & thigh have been alternately healing & breaking down. Joined 1st Newfoundland Regt. & went to Gallipoli in spring 1915. Flesh wound of inner aspect of left thigh which healed kindly but the old trouble began to bother him. He was discharged from Newfoundland army early in Dec. 1916, returned to Canada with sinuses healed. Re-enlisted in 228th Battn. Dec. 1916. Went to France in March /17, after a month in the line took a severe chill and the old wounds broke down again, sent to the hospital and has been there ever since. Arr. Q.M.H. Dec. 1/17 with evidently an old caries condition of left femur with breaking down of same. He had 2 discharging sinuses on inner side of left leg, 1 near knee & the other 5" higher up. Leg was swollen, weak & was unable to put his wt. upon it without his Lt. knee giving away. The sinuses were douched, drained & dressed daily for over a month, then bismuth paste was injected. The discharge lessened daily, the leg especially knee became stronger.
